# Clicker Tips

## 2. SAFELY FEED YOUR HORSE

- \* FIRST let the horse touch the back of your hand.

- \* NEXT wait until he pulls his head back and away from your hand.

- \* NOW turn your hand over. Feed with a very flat palm and your thumb tucked against your hand.

### VERY IMPORTANT TIP

Tuck your thumb in or you may lose it!

# Clicker Tips

## 2. SAFELY FEED YOUR HORSE

Practice feeding your horse safely before we introduce the clicker or target.

Start this task with your horse in the stall or behind a fence.

Your goal is to let the horse feel the difference between the BACK of your closed hand and your PALM.

Begin this task with 5 treats. Take a very short break, then practice this again.
